

WEIGHMORE® In-Motion Conveyor Scales

Built Better... Because We Care!

BUILDING
CONVEYOR
Scales
SINCE 1990

If you need to weigh individually spaced product at high rates and speeds, Vande Berg Scales WeighMore® has the in-motion conveyor scale for you! See for yourself how the most accurate **NTEP Approved: Legal for Trade** scale on the market today can reduce your plant's labor costs and increase your weighing accuracy.

You want a superior scale. We design conveyor scales, in-line check-weighers, and dynamic weighing systems that will stand up to the harsh environments your plant can put them through.

Our conveyor scale is easily integrated into your plant's other system components. Vande Berg Scales' WeighMore® brand gives you a conveyor scale that can be used for product sortation, case labeling, data transmission, and management reporting.

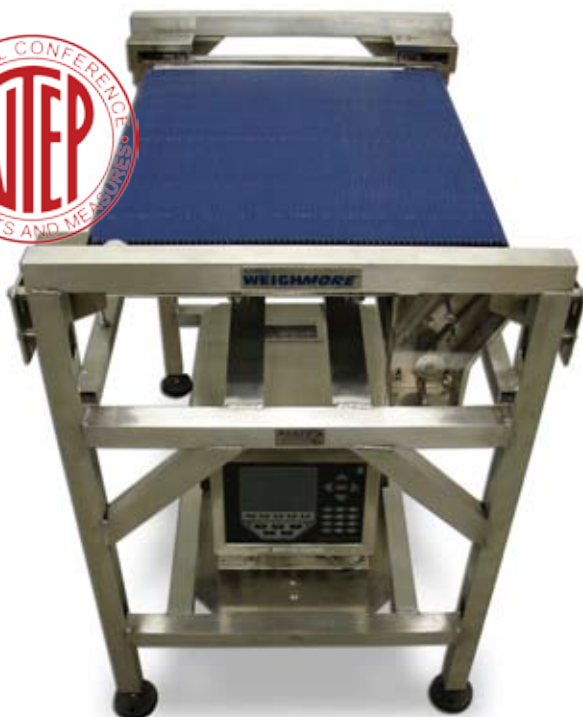

**For All Your In-Motion Weighing Needs,
Go With A Top Quality Vande Berg Scales
Weighmore® In-Motion Conveyor Scale!**

CONFIGURABLE-DESIGN

You Want It, We'll Make It.

Built with food safety in mind.

Unlimited Applications:

- Direct food contact such as: Beef, Pork, Poultry, Fish, and Dairy
- Checking box or bag weights
- Dry food manufacturers
- Package shipping applications
- Where legal-for-trade weight is needed
- Net weight verification
- Variable weight labeling

See for yourself if a WeighMore® In-Motion Conveyor Scale is the most accurate scale made!

You can manage it, if you can measure it!

Features:

- In-motion weighing of spaced individual products
- Easy clean up with access to the entire direct-contact surfaces
- Configurable to fit your application perfectly
- Powered isolated scale conveyor design
- Fully automatic weigh cycle triggering from photo eyes
- Aluminum or Stainless steel construction
- Options for wash-down and harsh environments
- Wide range of available belt speeds to suit application
- Motor designed for optional variable speed
- **NTEP** Capacities available 10-200 lbs.
 - 2000 **NTEP** divisions
 - **NTEP** Graduation size from .005-.1 lbs.
 - Smaller non-**NTEP** available
 - From 10 to 380 feet per minute
- Sizes available from 6" to 36" wide and 12" to 60" in length

- Modular plastic belting capable of direct food-contact open or closed belt
- Full bed for maximum belt support and scale accuracy
- Smooth belt driven design
- Cross-braced frame for superior support and rigidity
- Single load cell design for simplified calibration, maintenance, and operation
- Our safety stops help protect the load cell from abusive treatment
- Competitive prices make your ROI ratio stand out
- Easy interfacing with classifier, sortation, auto-box labeling, manual box labeling, and embedded controller server systems
- Available for RTE areas
- Automatic operation

NTEP Capacity X Resolution

200 lb X	.1 lb
100 lb X	.05 lb
40 lb X	.02 lb
20 lb X	.01 lb
10 lb X	.005 lb
