

WEIGHMORE® In-Motion Checkweighers

Built Better... Because We Care!

WeighMore® Checkweigher with 17" Touchscreen Controller

One platform...nearly limitless applications

From counting pills in bottles to ensuring correct food portions to checking boxes weighing hundreds of pounds, the WeighMore® In-motion Checkweigher with Scale Data System (SDS) Touchscreen Controller is the right choice for so many applications.

Ideal for low-capacity checkweighing:

- Counting pills in bottles
- Individual food portions

Perfect for medium capacity checkweighing:

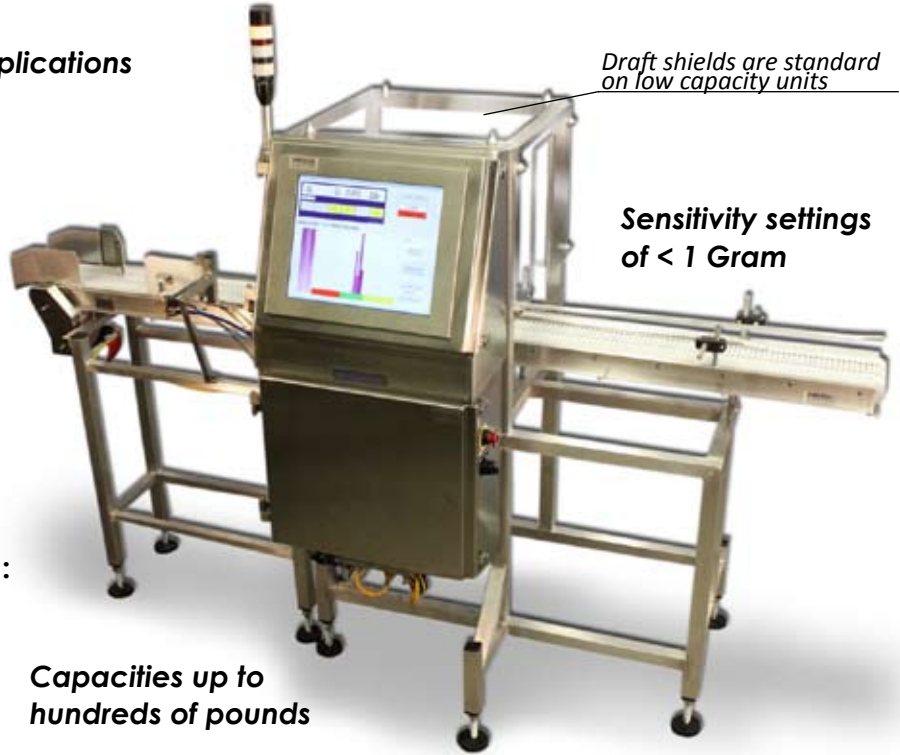

- Counting components and parts
- Checking number of packs in boxes
- Product give-away prevention
- Filling system verification and adjusting

Unsurpassed high capacity checkweighing:

- Counting boxes in cases
- Bulk or bagged product verification

Draft shields are standard on low capacity units

Sensitivity settings of < 1 Gram

Capacities up to hundreds of pounds

Large, intuitive 17" touchscreen display

Call for a custom quote based on your product specifications, production rate, and environment. See why we say, "Get way more for way less with a WeighMore® In-motion checkweigher!"

Our 17" touchscreen controller provides operator efficiency, clear, intuitive inputs and easy menu navigation

Choice of diverting technologies

Choice of frames

- Food Grade, Stainless Steel construction, NEMA 4X
- Aluminum frame option for extra economy

The WeighMore® In-motion Checkweigher with 17" Touchscreen Controller provides:

- Operator Efficiency. Clear, intuitive inputs. Easy menu navigation
- Network communication and USB ports standard
- Information at-a-glance. Production data, statistical records, historical graphs
- Low capacity checkweighing to < 1 gram sensitivity available
- High capacity checkweighing for products weighing hundreds of pounds
- Three conveyor design: in-feed conveyor, conveyor scale, exit conveyor
- Single or multiple lanes available for hundreds of pieces per minute throughput

Open, cleanable design

Versatile, Dependable, Economical

All this plus customized layouts and configurations, single, strain gauge loadcell weighing helps make the WeighMore® affordable and reliable. The open design and modular plastic belting promote efficient cleaning and less down time. Even the 17" full color touchscreen monitor is rated NEMA 4X for washdown environments.

Value today and tomorrow. The WeighMore® costs less to buy, less to maintain due to:

- Modular plastic belting (Other belt options are available)
- Brick-style, strain gauge load cells
- Industry standard motors, controller, display, etc.

Customization that fits your needs, your speeds, your space.

SDS 1700 Touchscreen Controller provides:

- Large on-screen characters for convenient communication even at a distance

Options for even greater customization:

- Portability
- Remote display
- Product guides
- Filling machine feedback
- Wireless communication
- Variable Frequency Drive
- Alarm for multiple or consecutive rejects
- Metal detector input for reject mechanism
- Single zone, 3 zone, or 5 zone indicating light post
- Network interface for PLU downloads and product uploads
